YOU ARE NOT ALONE....

More than 20 million Americans suffer from **Peripheral Neuropathy**, a problem caused by damage to the nerves that supply your arms and legs. This painful condition interferes with your body's ability to transmit messages to your muscles, skin, joints, or internal organs. If ignored or mistreated, **Neuropathy** can lead to irreversible health conditions.

The single most important solution to your **Neuropathy**: By using gentle techniques, we are often able to increase circulation which commonly brings in healthy cells and oxygen to damaged tissues. This can allow the nerves to heal and the symptoms to go away.
